The M. D. of Bonnyville has developed camping areas with a host of recreational and tourist facilities at the three largest and most popular lakes in the north east region of Alberta. All are well maintained and offer unique camping experiences geared towards the park's advantages. The M. D. of Bonnyville campgrounds do not charge for the amount of firewood consumed. Not many campsites these days can boast that, however, it is only one of the advantages of camping in the M. D. Parks. Many more will have to be discovered on your own.
